H-26, R-2, Saatmosjid Housing, Mohammadpur, Dhaka, Bangladesh

SUMMARY

Senior Software Engineer with nearly nine years of mobile engineering across iOS, native Android and Flutter, currently focused on iOS advertising SDKs. I build SDK components that publishers integrate into their apps, including third-party ad network adapters, mediation and header bidding integrations, and I own the release pipeline across CocoaPods, Swift Package Manager and XCFramework. Earlier work spans fintech, field-operations and HR apps, including apps for Bangladesh's largest mobile financial service, with around 10 apps released. I have led a mobile team of 4–5 engineers and built backend services with Java and Spring Boot.

SKILLS

iOS & SDKs: Swift, Xcode, iOS SDK architecture, CocoaPods, Swift Package Manager, XCFramework, TeamCity CI/CD, SwiftUI, UIKit, SDK documentation and demo apps

Android: Kotlin, Java, Android SDK, MVVM, Room, RxJava, Retrofit, LiveData, ViewModel, Bluetooth / BLE

Flutter: Dart, BLoC, Provider, Riverpod, native platform plugins, responsive UI, Clean Achitecture

Backend & data: Java, Spring Boot, RESTful APIs, Firebase (Firestore, Realtime Database, Crashlytics, Analytics), SQLite, MySQL

Tools & practices: Git, GitHub, GitLab, GitHub Actions, Docker, Postman, unit and integration testing, Agile, Jira, code review, mentoring

EXPERIENCE

Senior Software Engineer L-III Jan 2026 – Present

Vivasoft Limited · Dhaka, Bangladesh

- Develop and maintain iOS advertising SDK components for Azerion's BlueStack SDK, focusing on architecture, compatibility, reliability and maintainability.
- Build ad network adapters (BidMachine, AppLovin) and integrate Google AdMob mediation, Prebid bidding, CMP consent management and OMID viewability.
- Manage SDK releases through CocoaPods, Swift Package Manager and XCFramework, with testing and CI/CD on TeamCity. Maintain public SDK documentation and demo apps.

Senior Software Engineer L-I Jan 2024 – Dec 2025

Vivasoft Limited · Dhaka, Bangladesh

- Led a mobile team of 4–5 engineers: technical direction, code review, mentoring and delivery across Flutter, native Android and iOS projects.
- Developed Inspector Android, a native Android app that talks to gas inspection devices over Bluetooth. Revamped the UI and reworked core logic for stability.
- Built Financfy, a Flutter accounting app for small businesses, with BLoC state management and Clean Architecture.

Senior Software Engineer L-I Sep 2023 – Dec 2023

Vivasoft Limited · Dhaka, Bangladesh

- Improved stability of the Autonemo real-time vehicle tracking app and started Inpixon's Flutter app with a native Android (Kotlin) BLE plugin.

Mobile Application Developer (Flutter) Jun 2021 – Sep 2023

bKash Limited (partner team) · Dhaka, Bangladesh

- Built Bangla QR payments, Savings and the Pay Bill revamp in the bKash Customer App, Bangladesh's largest mobile financial service, using Flutter, BLoC and Clean Architecture.
- Built the bKash DSO app from scratch in Flutter for Distribution Sales Officers nationwide and led a five-person team through implementation and delivery.

Software Engineer Dec 2017 – Jun 2021

Vivasoft Limited · Dhaka, Bangladesh

- Developed native Android (Java) and Flutter apps for fintech, HR and food-delivery clients, including MyCash, PiHR and klikit.
- Built REST APIs and services with Java and Spring Boot for business logic and system integration.

PROJECTS

BlueStack iOS SDK Vivasoft for Azerion · 2026 – Present
Advertising SDK for publishers · **Objective-C, Swift, CocoaPods, SPM, XCFramework, TeamCity**

- Ad network adapters for BidMachine and AppLovin; Google AdMob mediation, Prebid bidding, CMP consent and OMID viewability.
- Release pipeline, public documentation and demo apps for publishers and partners.

bKash Customer App bKash · 2021 – 2023
Mobile finance app · **Flutter, Dart, Bloc, Clean Architecture**

- Pay Bill revamp, Islamic Savings and Bangla QR; followed OOP, SOLID and Flutter performance best practices.

bKash DSO App bKash · 2021 – 2023
Transaction and monitoring app for Distribution Sales Officers · **Flutter, Dart, Bloc, Clean Architecture**

- Built from scratch: B2B transfers to agents and distributors, balance checks, statements, push notifications and live location tracking.

Inspector Android (Wigersma & Sikkema) Vivasoft · 2024 – 2025
Gas line and pressure station inspection app · **Android, Kotlin, Bluetooth, BLE, MVVM, Retrofit**

- Bluetooth commands and data exchange with measurement devices, inspection instructions, pressure and leakage graphs; upgraded to the latest Android version.

Inpixon Vivasoft · 2023 - 2024
Indoor positioning: real-time distance between BLE devices · **Flutter, Dart, Kotlin, BLE Plugin**

- Flutter UI and a native Android (Kotlin) BLE communication layer integrated as a Flutter plugin.

Financfy Vivasoft · 2024 – 2025
Accounting app for businesses · **Flutter, Dart, Bloc, Clean Architecture**

- Built on feature first architecture with internal network client, logger, error report to service packages and UI library.

Amtel MyCash Vivasoft · 2017 – 2021
Mobile finance app· **Android, Java, MVVM, Retrofit**

- Money transfer, top-up, bill payment and remittance features in the native Android app.

EDUCATION

B.Sc. in Computer Science and Engineering2013 – 2017
Khulna University of Engineering & Technology (KUET)

Higher Secondary Certificate (Science)2010 – 2012
Agricultural University College, Mymensingh

CERTIFICATIONS & AWARDS

- Claude Code in Action
- AWS Fundamentals: Going Cloud-Native
- Building Scalable Java Microservices with Spring Boot and Spring Cloud
- The Complete Flutter App Development Course for Android, iOS
- LICT Top-Up IT Training on basic and advanced Java
- National Hackathon, 1st Runner-up
- University Faculty Dean’s Award, session 2014–15
